

# Supportive cancer nursing care for all

Have you had treatment for any type of cancer? Join us in shaping the future of supportive cancer care.

## What is this project about?

[REDACTED] all cancer nurse service being created by one of Australia's well-known foundations.

## Why participate?

- **Shape the future:** The opportunity to co-design a model that meets the needs of those receiving and delivering supportive cancer care in Australia.
- **Be empowered:** Experience increased empowerment by being part of the model design and having your voice heard.
- **Gain and share knowledge:** Learn about the latest in supportive cancer care and connect with others with an experience of cancer.
- **Improve your own experience:** If you are likely to have a longer-term experience with cancer, you may benefit from one of the all cancer nurses and enhanced access to supportive care.
- **Compensation for your time:** If you attend workshops or focus groups, you will be compensated for your time with a Visa gift card.

## Who can participate?

- Anyone diagnosed with any form of cancer, past or present
- Carers or family members of people diagnosed with cancer
- People with an experience of cancer, that represent priority populations such as rural and remote people, people living with a disability or a mental illness, LGBTIQ+, lower socioeconomic groups, people from culturally or linguistically diverse communities, younger and older Australians and First Nations people.

## What does involvement look like?

From August – March 2025, participation can involve either:

- Face to face attendance at a focus group (~ 3 hours) and a workshop; or
- Completion of online surveys (~1 hour).
