

Researching Bone Health in Cancer Patients

Why Participate? You Could Help Us:

- Assess knowledge and practices on bone health among individuals with cancer.
- Identify barriers to bone health post-treatment.

Who Can Participate?

- Aged **18+** and currently receiving or have received cancer treatment.
- Able to complete a 25-minute online survey.

Benefits of Participating:

- Contribute to important research that could enhance healthcare for future cancer patients.
- Help identify gaps in support for bone health management.

What to Expect:

- Complete questions about your experience with bone health, lifestyle, and healthcare.
- Share insights into your knowledge and support received related to bone health management.

Your Participation Matters!
